Tommy Wood

Strikes an Emotional Chord with
Country Music Fans with
His Tender-Hearted Single *“Two Little Feet”*

Nashville, TN (June 1, 2009) – Tommy Wood strikes an emotional chord with country music fans young and old with the release of his tender-hearted single *“Two Little Feet”*.

This powerful ballad depicts a relationship between a father and his daughter and how he needs help to be the kind of man he should be for her sake. Written by Gerald Crabb and produced by Dave Fowler. Tommy’s vocals send country music fans young and old back to an era of nostalgia when country was country. Singing with such conviction and passion, each lyric and verse resonates with a hint of truth for him as it hits very close to home for Tommy. A single dad raising a young daughter, he understands the importance of being a role model for her and the help that is needed on a daily basis from someone stronger than he. *“Two Little Feet”* is the second release from Wood’s upcoming CD and ships to radio today via download by Radio On The Row, www.radioontherow.com, www.myspace.com/radioontherow, 615-891-2019.

“When my daughter was born my whole life changed. I was so proud to finally be a daddy.” Tommy says. “When I came across this song, *“Two Little Feet”*, it was so inspirational as I was listening to the lyrics. I felt like this song was written about me and my little girl and I had to record it.” Tommy states “the message of this song simply says if she’s following me then Lord I need to follow you”.

Wood was invited to perform *“Two Little Feet”* on Virginia’s Dream Centerstage which airs on ABC affiliate WHSV in Virginia and will make his way back to Nashville for some studio time in June.
